Bureau du code de conduite pour le secteur des
produits d'épicerie (BCCSPÉ)**

Operating Rules

ADOPTED - Day, month, year

Background to Grocery Sector Code of Conduct

On November 27, 2020, the Agriculture Ministers discussed the concerns of processors, producers, and independent grocers regarding increased retailer fees on suppliers and the need for balance in the supplier-retailer relationship, while also ensuring that Canadians continue to have access to a reliable grocery supply at affordable prices. Federal, Provincial, and Territorial (FPT) governments agreed that collaborative action was the best approach.

In July 2021, FPT Ministers called for an industry-led process to develop broad consensus around a concrete Code proposal to improve transparency, predictability, and respect for the principles of fair dealing within the supplier/retailer relationship.

Following the July 2021 announcement, a Steering Committee comprised of individuals from ten key stakeholder associations was convened with the goal of developing terms of reference and a work plan aimed at facilitating the development of a formal Grocery Sector Code of Conduct. The Code of Conduct is not a singular document. It is a set of integrated measures including: (a) principles, (b) trade rule provisions supported by clear definitions, (c) a dispute resolution mechanism, (e) mediation and arbitration models, and (f) enforcement mechanisms, which work together to promote fair and ethical trading and contractual certainty.
